Set Notation Venn Diagrams

F01	Translate and operate on written sets	7 Q 17 marks
------------	--	----------------

F02	Read or construct a two-set Venn diagram	6 Q 8 marks
------------	---	---------------

F03	Resolve a three-set Venn model	8 Q 19 marks
------------	---------------------------------------	----------------

Question 04

4MA1-1H Q7

MODULAR UNIT 1

5 marks

- 7 $\mathcal{E} = \{23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34\}$
 $A = \{\text{even numbers}\}$
 $B = \{23, 29, 31\}$
 $C = \{\text{multiples of 3}\}$

(a) List the members of the set

(i) $B \cup C$

(1)

(ii) $A' \cap C$

(1)

(b) Is it true that $B \cap C = \emptyset$?

Tick (✓) one of the boxes below.

Yes

No

☐
☐

Give a reason for your answer.

(1)

The set D has 4 members and is such that $D \cap (A \cup C) = \emptyset$ (c) List the members of set D

Question 01

4MA1-1H Q1 (a)

MODULAR UNIT 1

1 marks

1 Here is a Venn diagram.

List the members of the set

(a) A

.....
(1)

Question 02

4MA1-1H Q1 (b)

MODULAR UNIT 1

1 marks

1 Here is a Venn diagram.

List the members of the set

(b) $A \cap B$
(1)

Question 03

4MA1-1H Q1 (c)

MODULAR UNIT 1

1 marks

1 Here is a Venn diagram.

List the members of the set

(c) $(A \cup B)'$

(1)

Question 09

4MA1-1H Q16

MODULAR UNIT 1

3 marks

16 The Venn diagram shows a universal set $\mathcal{E}$ and sets A , B and C

The numbers and the letter x represent **numbers** of elements.

Given that $n(A \cup B) = 42$

(a) find the value of x

$x = \dots\dots\dots$
(1)

(b) Find $n(A')$

$\dots\dots\dots$
(1)

(c) Find $n(B' \cap C)$

Question 04

4MA1-1H Q4 M01

MODULAR UNIT 1

1 marks

4 Here is a Venn diagram.

(a) List the members of the set B

.....
(1)

Question 05

4MA1-1H Q4 M02

MODULAR UNIT 1

1 marks

4 Here is a Venn diagram.

(b) List the members of the set $A \cap B$

.....
(1)

Question 06

4MA1-1H Q4 M03

MODULAR UNIT 1

1 marks

4 Here is a Venn diagram.

(c) List the members of the set A'

.....
(1)

Question 26

4MA1-2H Q21 M01

MODULAR UNIT 1

4 marks

- 21 The Venn diagram shows information about the numbers of items in set A , set B and set C , where x is an integer.

Given that $n(A \cup B)' = 26$

find $n(A' \cap C)$

$n(A' \cap C) = \dots\dots\dots$

Question 06

4MA1-1H Q7

MODULAR UNIT 1

3 marks

$$7 \quad \mathcal{E} = \{4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15\}$$

$$A \cap B = \{5, 10, 15\}$$

$$B' = \{7, 8, 9, 11, 12, 13, 14\}$$

$$A' = \{4, 6, 7, 8, 14\}$$

Complete the Venn diagram for this information.

$$B = \{\text{multiples of } 3\}$$

(i) $A \cap B$

January 2021 | 4MA1-1H | Question 4 | 1 marks

Chapter OL-T02: Set Notation & Venn Diagrams

(ii) $A \cup B$

16 Some students were asked the following question.

“Which of the subjects Russian (R), French (F) and German (G) do you study?”

Of these students

- 4 study all three of Russian, French and German
- 10 study Russian and French
- 13 study French and German
- 6 study Russian and German
- 24 study German
- 11 study none of the three subjects
- the number who study Russian only is twice the number who study French only.

Let x be the number of students who study French only.

(a) Show all this information on the Venn diagram, giving the number of students in each appropriate subset, in terms of x where necessary.

(3)

Given that the number of students who were asked the question was 80

(b) work out the number of these students that study Russian.

16 Some students were asked the following question.

“Which of the subjects Russian (R), French (F) and German (G) do you study?”

Of these students

- 4 study all three of Russian, French and German
- 10 study Russian and French
- 13 study French and German
- 6 study Russian and German
- 24 study German
- 11 study none of the three subjects
- the number who study Russian only is twice the number who study French only.

Let x be the number of students who study French only.

- (a) Show all this information on the Venn diagram, giving the number of students in each appropriate subset, in terms of x where necessary.

(3)

Given that the number of students who were asked the question was 80

- (b) work out the number of these students that study Russian.

A Venn diagram with three overlapping circles labeled A, B, and C. The regions are numbered: 12 (A only), 9 (B only), 4 (C only), 5 (A and B), 10 (A and C), 3 (B and C), and 6 (A, B, and C). The number 8 is outside the circles.

Find

(i) $n(A \cup B)$

(ii) $n(A' \cap B')$

(iii) $n([A \cap B] \cup C)$

- 4 $\mathcal{E} = \{\text{letters of the alphabet}\}$
 $B = \{\text{b, r, a, z, i, l}\}$
 $I = \{\text{i, r, e, l, a, n, d}\}$

(a) List the members of the set

(i) $B \cup I$

(ii) $B \cap I'$

Cody writes down the statement $B \cap K = \emptyset$
Cody's statement is wrong.

14 $\mathcal{E} = \{\text{integers } x \text{ such that } 10 \leq x \leq 25\}$

$$A = \{x : x < 18\}$$

$$B = \{x : 13 \leq x < 22\}$$

(a) Write down $n(A)$

(1)

(b) List the members of the set $(A \cup B)'$

(2)

(c) List the members of the set $A' \cap B$

(2)

$C \subset A$, $C \subset B$ and $n(C) = 5$

(d) List the members of the set C

$$A = \{\text{even numbers}\}$$

$$A \cap B = \{12, 16, 20\}$$

$$(A \cup B)' = \{17, 19\}$$

A Venn diagram illustrating the relationship between two sets, A and B , within a universal set $\mathcal{E}$. The universal set $\mathcal{E}$ is represented by the entire rectangular frame. Two overlapping circles, labeled A and B , are shown. Circle A is on the left and circle B is on the right. The intersection of the two circles represents the elements common to both sets A and B .

(Total for Question 3 is 3 marks)
